# EMPOWERING CYBER RESILIENCE.

## Assess. Secure. Adapt.

Your end-to-end cyber security partner – securing infrastructure, enabling compliance, and driving resilience.

### Intelligent Security Assessments

Proactively identify gaps and secure your foundation.

- AI-Driven Configuration Reviews
- Actionable Assessment Reports
- Insightful Security Posture Analysis
- Advanced Forensics & Incident Analysis
- Compliance Gap Assessments
- Tailored Risk & Compliance Audits (NCIIPC, ISO, HIPAA, GDPR, etc.)

### Seamless Security Transformation

From strategy to execution – we help you stay ahead.

- End-to-End Security Implementation
- Secure Cloud, Hybrid & On-Prem Solutions
- Integrated Security Architecture & Automation
- Zero Trust Design & Rollout
- Resilient Infrastructure & Application Protection
- Risk Mitigation that Scales

### Adaptive Managed Security Services

Your always-on cyber defence partner.

- 24/7 Threat Detection & Automated Response
- Real-Time SOC-as-a-Service
- Advanced Threat Protection & Intelligence
- Continuous Vulnerability Management
- Rapid Incident Response & Containment
- Executive Dashboards & Reporting

## Why us?

- AI-led Security Intelligence
- Deep Compliance Expertise
- Technology-Agnostic Delivery
- Trusted by Enterprises Across industries

# GRC SERVICES

## Smart. Compliant. Secure.

Fluidech delivers agile, end-to-end GRC solutions that empower organizations to navigate evolving risks, meet regulatory obligations, and strengthen enterprise-wide resilience, all without the complexity.

## Compliance & regulatory standards we support:

- CSCRf from SEBI
- NCIIPC (L1, L2 & L3)
- ISO 27000 family of standards
- IEC 62443
- NIST
- HITRUST
- IT Act
- HIPAA
- GDPR
- RBI compliances
- MAS compliances
- NYSA

## Business Outcomes You Can Expect

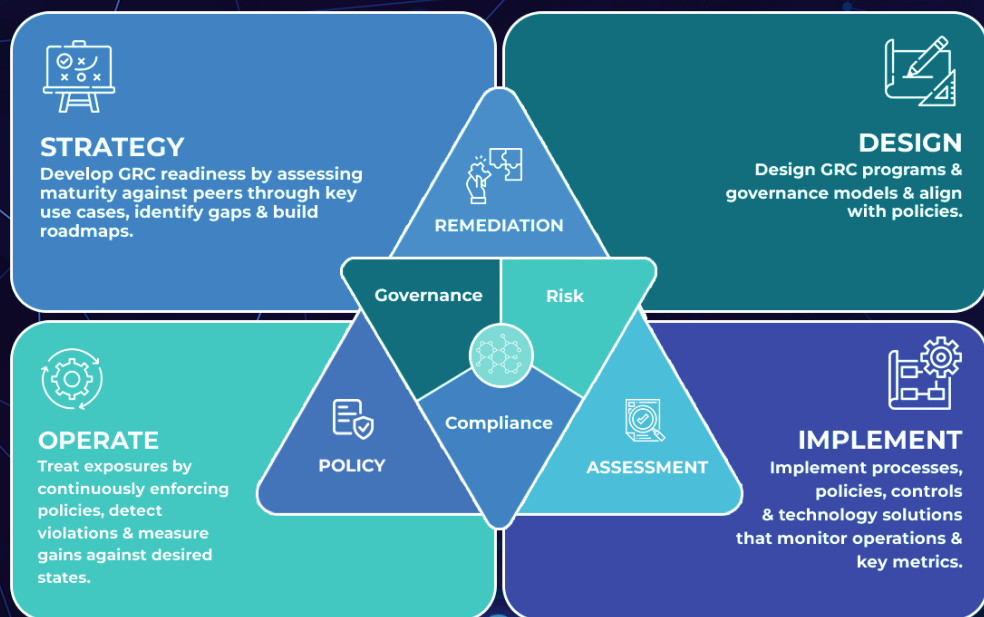

**Reduced Audit Fatigue**  
Standardized compliance across frameworks

**Faster Time to Readiness**  
From assessment to implementation, quickly

**Continuous Assurance**  
Stay updated as regulations evolve

**Clarity Across Stakeholders**  
Clear roles, mapped controls, measurable gaps

## GOVERNANCE, RISK AND COMPLIANCE

# OT CYBER SECURITY SERVICES:

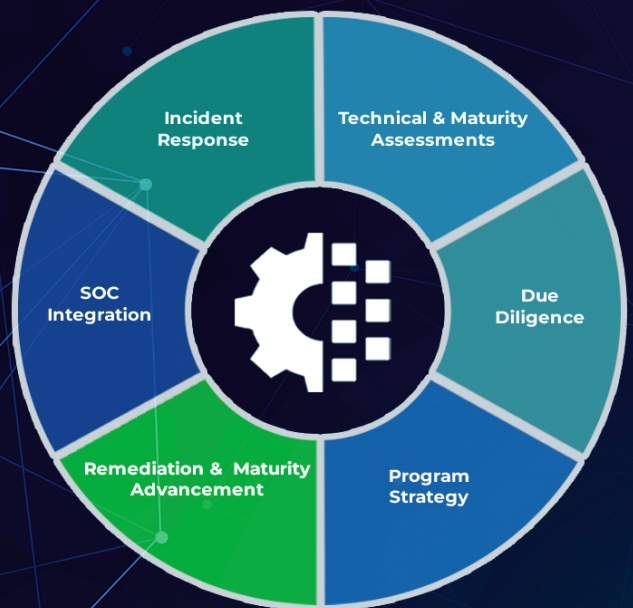

## Securing what keeps us all running.

Advanced cyber security for operational as well as critical Operational Technology Environments

### Our OT Security Services

We provide end-to-end cybersecurity solutions for Industrial Control Systems (ICS), SCADA, and OT environments across critical sectors like Power, Oil & Gas, Water, Transportation, and Manufacturing.

- Risk Assessment & Gap Analysis
- Threat Detection & Monitoring
- Network Segmentation & Access Control
- Penetration Testing & Red Teaming
- Regulatory Compliance Support

As on this date, Fluidtech is the **ONLY** accredited CO (consultancy organisation) of NCIIPC (National Critical Information Infrastructure Protection Centre). Please check our website for the scope of our accreditation with NCIIPC: at [www.fluidech.com](http://www.fluidech.com)  
We have also implemented QMS (ISO 9001) in the scope of accreditation

# MANAGED SOC SERVICES

## Smart Security. Real-Time Response.

Fluidech's fully managed SOC services combine expert analysis, AI-driven threat detection, and automation to secure your cloud, on-prem, or hybrid infrastructure 24/7.

We reduce alert fatigue, respond fast, and keep you compliant with centralized visibility and audit-ready reporting.

### Core Capabilities

- 24/7 Threat Monitoring across cloud, endpoints, and OT
- Automated Response with play-books & expert triage
- Proactive Threat Hunting backed by intel and human insight
- Compliance Reporting aligned with ISO, NIST, PCI DSS
- SIEM & SOAR Integration for real-time orchestration
